

Panel and Maintenance Technician

Temple Control Systems is looking for a Panel/Maintenance technician. We need the type of person who is self motivated and always looking for something to do. Primary duties will be building panels or other mechanical components for projects. Other duties will involve continuous improvement around the company headquarters. If you feel you are a good fit, send your resume to us.

Job Duties:

- Panel Wiring
- Mechanical Assembly
- Carpentry, Framing and remodeling an office space
- Managing tools, inventory and spare parts
- Receiving and organizing packages
- Some grass cutting and snow removal

Required Skills:

- Understanding of Panel design, layout and wiring
- Assembling various machines or tools for projects
- Basic Carpentry
- Inventory tools and parts
- Ability to work with minimal supervision
- Ability to lift 30 pounds

Desired Qualifications:

- HS Diploma or equivalent
- 1 year experience in panel wiring

Also accepting resumes from candidates who may only have some of the qualifications above. We are willing to train if you are willing to work hard and learn.
